

HOOSIER DESERT TRAINING/ RESEARCH FACILITY AND RECREATIONAL WEAPONS RANGE

PREMIER “OFF THE GRID” SUSTAINABLE, WE UTILIZE BUT PRESERVE THE UNIQUE DESERT ENVIRONMENT WITH A TOUCH OF HOOSIER HOSPITALITY

Helping Those Who Help Others

- We support, train and educate:
- First Responders, SAR
 - Law Enforcement
 - US Military
 - Other Governmental Agencies
 - Entertainment and Movie Professionals
 - Additionally provide companies, organizations and educational institutions a hassle free environment to conduct training research, development and recreational weapons shooting.

Location, Time & Collaborative Effort

- In California as is with most locations in the US, it can be difficult to find a suitable site to conduct training, AI Unmanned, R&D and range activity.
- If available they are typically hours away which costs time and money.
- All of this become a huge challenge to coordinate your Teams Training, R&D etc.

Solution

If you have a new design that needs Underground development, an Unmanned System or AI technology that needs testing, Nevada is the state and The Hoosier is your location. Just 30 miles south of Las Vegas, easily accessible, user friendly Facility, Trainers and Range Masters. The Hoosier Desert Facility will do its best to accommodate your success.

Hoosier Advantage

Because of our remote location and Uncontrolled Airspace we are ideally situated for Underground, above ground, Drone, Unmanned Systems, AI Research, Development and Weapons Testing.

Right People, Right Time

Always ready and professional, our Teammates put the Client first. Veteran owned and operated, we can leverage our vast experience to assist you.

WE HELP MAKE YOUR HARD WORK BECOME REALITY
